

Southeast Harris County ARES

In the event the S/E Harris County ARES group gets called up check in on these frequencies for instructions. The W5RRR (JSC-ARC) repeater is our primary point of contact. If the repeater is down check in on 146.64 simplex. You may be directed to use one of the back up repeaters or simplex. Depending upon the need of the call out you may be directed to use one of the alternate repeaters due to their location or the need to have multiple nets.

Primary Repeater 146.640 (-) no tone
